SUMMARY

Full Stack Developer with 4.5 years of experience building travel-tech and SaaS platforms. Currently working remotely for a US company (Arbargold Software); experienced with AWS Cognito/CloudFront security architecture, IATA NDC/travel APIs (Sabre, Amadeus, Travelport), and full-stack MERN/Next.js development at scale. Proven track record of driving 40% increases in user engagement and 30% boosts in conversion rates through UI/UX improvements and high-performance frontend delivery.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+), HTML5, SCSS, Tailwind CSS
- **Backend & Databases:** Node.js, NestJS, Express.js, MongoDB, Firebase, GraphQL
- **State Management:** Redux, Vuex, React Context API
- **Payments & APIs:** Stripe, Razorpay, Socket.io, RESTful APIs, Travel APIs (Sabre, Amadeus, Travelport)
- **Cloud & Security:** AWS (S3, CloudFront, Cognito), IAM Policies, Origin Access Control (OAC), OIDC Integration, JWT Authentication
- **Tools & Testing:** Git, Jest, Vite, Web Performance Optimization, Scrum/Agile, CI/CD

PROFESSIONAL EXPERIENCE

Full Stack Developer | **Arbargold Software** | Jan 2025 – Present | Remote, USA

- Architected and deployed a secure analytics dashboard using React, Vite, and AWS — reducing page load times and improving reporting reliability.
- Implemented user authentication and identity management using AWS Cognito and react-oidc-context to manage secure user sessions.
- Deployed scalable frontend architecture on AWS S3 and CloudFront with Origin Access Control (OAC) and custom IAM policies, enforcing the principle of least privilege.
- Resolved deployment issues including MIME type mismatches and SPA routing errors via network profiling, improving delivery reliability.
- Modernized the SubJob UI/UX, ensuring design consistency across the application and measurably improving user experience.

Software Engineer | **Farenexus** | Dec 2023 – Dec 2024 | Chandigarh, India

- Led frontend development of a B2C travel booking platform, contributing to a 40% increase in user engagement and a 30% boost in conversion rates.
- Integrated Sabre, Amadeus, and Travelport travel APIs alongside IATA NDC protocols to streamline booking logic and system interoperability.
- Maintained high-performance React.js and TypeScript applications, significantly improving reliability and load speeds.

MERN Stack Developer | **eSoftware Solutions** | Sep 2022 – Aug 2023 | Yamuna Nagar, India

- Engineered backend services using Express.js and NestJS to support scalable web application features.
- Integrated Stripe and Razorpay payment gateways, enabling secure real-time financial transactions.
- Optimized web performance through code refactoring, achieving 20–30% faster load times.
- Implemented real-time chat with Socket.io and Firebase database sync, increasing user retention by 15%.

React Developer | **Socialpubli Influencer Marketing** | *Jul 2021 – Aug 2022* | *Vadodara, India*

- Delivered high-performance React applications with a focus on scalability, improving platform load speeds by 25%.
- Streamlined data flow by integrating GraphQL and RESTful APIs, enhancing responsiveness for influencer matching tools.

EDUCATION

- **Bachelor of Technology, Computer Science** | Kurukshetra University, India | June 2022
