

Summary

I'm a **frontend developer** with **2 years** of experience in **React.js, Vue.js, HTML, CSS, and JavaScript**. I specialize in creating **responsive** and **user-friendly web applications** that improve the user experience. My focus is on design and functionality to ensure a seamless web experience.

Professional Experience

Software Engineer Farenexus

Dec 2023 – Present
Mohali, Punjab

- Used **React.js, Vue.js, and TypeScript** to build and maintain fast, responsive websites for the **travel industry**, ensuring a smooth user experience and high performance.
- Integrated major travel systems like **Sabre, Amadeus, and Travelport**, along with **IATA NDC protocols**, to improve the functionality of travel booking solutions for better user interaction.
- Designed and developed a B2C travel booking site with features for **searching and booking flights, hotels, and car rentals**, which greatly increased user engagement and conversion rates.
- Applied **SEO best practices to the travel booking website**, including **optimizing meta tags, speeding up page load times**, and ensuring mobile compatibility, leading to **more traffic and improved search rankings**.

Junior Web Developer eSoftware Solutions

Sep 2022 – Aug 2023
Yamuna Nagar, Haryana

- Led several projects, improving **web app speed** and ease of maintenance by cutting down unnecessary code and creating reusable parts, which made the apps load **20-30% faster**.
- Integrated **Socket.io** to enable **real-time chat** functionality, allowing users to send and receive messages instantly. Optimized the chat feature for seamless communication and minimal latency.
- Implemented **Firebase** for **Google Chrome notifications**, ensuring users stay informed with timely updates. Enhanced notification delivery through **Firebase**, improving user engagement and experience.
- Used **React.js, Redux, and TypeScript** to create interactive and high-performing web applications.
- Managed projects from start to finish on my own, ensuring they were **completed on time**.

Projects

B2C (Business to Customer) | Nuxt.js, Pinia, GraphQL, Sass, Bootstrap

[Live Link](#)

- We've enhanced our **website's SEO** to boost visibility and ensure a **higher search engine ranking**, while also fixing issues with how previews appear on social media platforms, resulting in more accurate and engaging content presentation when shared.
- Our improved **website SEO** will drive more organic traffic, and the optimized social media previews will ensure that your content looks compelling and correctly formatted across all platforms, enhancing user engagement and click-through rates.

Avenue | Next.js, Next-Auth, Typescript, Redux, Mui.

[Live Link](#)

- Avenue is a user-friendly app that simplifies **event management** while effortlessly handling your **flight, hotel, and vehicle bookings**.
- With Avenue, planning events and arranging **travel** is straightforward and efficient, all from one convenient platform.

Nainer | Next.js, Typescript, Redux, Chart.js, Tailwind CSS, Socket.io, Firebase

[Live Link](#)

- Nainer seamlessly connects innovators, experts, and investors to build successful teams, fostering collaboration and driving project success. Our platform utilizes **Socket.IO** for **real-time chat communication** and **Firebase** for reliable Chrome notifications, ensuring smooth interaction and timely updates for all users.
- By integrating **Socket.IO**, we provide instantaneous chat capabilities, while **Firebase** enhances user engagement with prompt Chrome notifications, keeping everyone informed and connected as they work towards achieving their goals.

Education

B.Tech (Computer Science and Engineering) Kurukshetra University • Haryana, India

July 2018 – June 2022

Skills

Languages: HTML/CSS, JavaScript, Typescript

Developer tools/IDE: VS Code

Frameworks/Libraries: React.js, Vue.js, Next.js, Nuxt.js, Redux, Socket.io, Vuex, GraphQL, Socket.io, Firebase, SCSS, Tailwind CSS, Styled-components

Additional Skills: Jira, Git

Non-Technical Skills: Problem solving, Critical thinking, Debugging
